

Kimball[®] Medical Solutions

Kimball Medical Solutions partners with our customers to address their unique medical manufacturing requirements. Our capabilities include electronics and plastics manufacturing comprehensive complex assembly, and adept supply chain management. With an understanding of the exacting demands and regulatory requirements of the medical industry, our capacities are crafted to align with the distinctive complexities of each customer. We have produced countless medical devices, drug delivery solutions, medical electronics, and disposable instruments since 1999. Harnessing our expertise, experience, global presence, and unwavering commitment to enduring partnerships, we offer comprehensive manufacturing solutions for complex medical products.

Partnership - work as an extension of the team

Precision & quality

TESTING

Focus testing criteria on areas of concern

Affirm reliability of specific functionality

AFTERMARKET SUPPORT

Service and support as market conditions change

Throughout product lifecycle from start to finish

CUSTOMIZED MEDICAL CAPABILITIES

We understand medical customers have stringent standards for their products, so our capabilities are uniquely tailored to meet the requirements and challenges of the medical market. By leveraging our focused medical core competencies, customer-aligned global footprint, disciplined culture, industry 4.0 experience, and commitment to lasting relationships, we find solutions where others can't.

PACKAGE OF VALUE

Our package of value includes our set of robust processes and procedures that helps ensure we deliver the highest levels of quality, reliability, and service throughout the entire life cycle of our customers' products.

GLOBAL PRESENCE

We have facilities in each major manufacturing region with appropriate industry-specific quality certifications and a team experienced in complete end-to-end partnership solutions and lifecycle support.

8 GLOBAL MANUFACTURING LOCATIONS

Creating Quality for Life

Kimball Medical Solutions is a single-source partner for medical contract manufacturing. Our approach to innovation is collaborative and multifaceted enabling speed to market through the complete lifecycle utilizing our expertise in electronics, plastics, full system assembly, automation, test and measurement.
