

Darcy Parks

Safety, Environment and
Facilities Manager

▣ Started at Kimball Electronics in 2022

- Darcy lives in Greenwood, Indiana, with her family. In her free time Darcy enjoys playing with her children, going to the drive-in theater, and trying new restaurants.
- A favorite memory of Darcy's with Kimball Electronics was the panel build for Habitat For Humanity. A life lesson Darcy has learned since joining Kimball Electronics is "I used to believe that work was intended to be stressful, but working with people who care, take pride in their work, and are striving to continuously improve makes your job a lot less stressful and a lot more enjoyable!"
- In the SEF department Darcy appreciates that the department celebrates birthdays with the persons favorite dessert. Kimball Electronics is her Employer of Choice because "Kimball Electronics cares about their people. They don't just say, they do. Their actions show it and it is reflected through everyone."
